KAMAZ 43509

The presented car is an absolutely new car from 43509 models, which is the main one in the line of sports trucks of the KAMAZ-master team. The design takes into account the requirements to the vehicles of the truck category that has been implemented by rally regulation «Dakar» since 2019. Six-cylinder in-line engine used is of 13 litres capacity. In spite of the external similarity with normal series truck, huge amount of advanced technical decisions are used. In honor of the 30th anniversary of the KAMAZ-master team, the cars sparkled with new livery colours aimed to emphasize the technical innovation of «KAMAZ» sports-edge and outline the team development in the trend of digital technologies.

The team won at «Dakar 2019», «Dakar 2020» and «Silk Way Rally 2019», «Silk Way Rally 2021» and «Dakar 2021».

Weight:	
Full weight, kg	10200
Engine:	
Model	DCEC ISZ-13
Type	diesel with turbocharging and intercooling
Maximum power, kW (h/p)/ at rpm-1	770 (1050) / 2400
Positioning and number of cylinders	six-cylinder in-line engine
Cubic capacity, l	12.98

Price: 60 000 000 RUB
